

Alfabat Pro Battery Tester

The Alfabat Pro has been designed to be a user-friendly way to test batteries voltage and capacity to determine the condition of the battery. The Alfabat Pro comes with BITS CD, which makes it easy to analyse and print reports to show battery performance.

LCD shows the capacity as a percentage and voltage during and after testing. It also shows if the battery needs charging before testing, if it has an internal failure (manufacturing fault) or if the capacity is insufficient. The LCD shows you why the battery is defective if a fault is found.

The Alfabat Pro is the most accurate capacity tester in its price category. It works out the capacity and voltage while testing. These results are presented in an easy to understand format.

The Alfabat Pro has four built-in functions:

- Single cycle capacity test
- Multiple cycle capacity test
- Charger test
- Voltage recorder.

Features:

- Battery capacity range 0.8-400Ah
- Tests both 6V and 12V batteries
- User friendly
- Microprocessor-controlled
- High quality, supremely reliable
- Can test different battery technology including – Lead-Acid, AGM, Sealed Maintenance free and Gel batteries
- The Alfabat pro can be easily connected to a computer for analysis of the batteries performance. The software is very accurate and easy to use. CD is provided with the Alfabat. Can easily print reports for battery test results.
- Discharge current Max. 30A
- Max. Charger current 50A
- Size L x W x H (mm) 375 x 145 x 135
- Weight (kg) 4.5

Why do you need the Alfabat Pro?

- It confirms the quality of the batteries you are selling.
- Improves your customer service and professionalism.
- Eliminates malfunctions due to the battery.
- Repays your investment by distinguishing between an empty battery and a defective battery.
- Produces a report that can be used as evidence with returns.
