

SW121040

Haze 12 volt 4 amp multifunction battery charger

**12 volt 1 amp, 2 amp and 4 amp. Multifunctional charger.
Charging output selector.**

Battery type selector AGM and Flooded, Gel and Calcium

3 Stages of charging: Bulk, Absorption and Float.

Micro chip operation means your battery can be safely left on charge indefinitely.

Will not charge a battery if it has fallen below 8 volts. This is a safety measure to prevent wrongful charging of 6 volt batteries.

Ideal battery for charging golf trolley batteries, motorcycle batteries, Auto batteries and Mobility batteries up to 50ah.
